

# Abdul Foster: The American Prodigy Who Earned His Doctorate at 16

Abdul Foster is an American prodigy who earned his doctorate in mathematics at the age of 16. He is now an assistant professor at the University of California, Berkeley, and his research focuses on algebraic geometry and number theory.

## Early Life and Education

Abdul Foster was born in New York City in 1998. He showed an early interest in mathematics, and by the age of 10, he was taking calculus at the local community college. In 2014, he enrolled in the University of California, Berkeley, at the age of 15. He completed his bachelor's degree in mathematics in just two years, and then went on to earn his doctorate in mathematics in 2017, at the age of 16.

## Research Interests

Abdul Foster's research interests lie in algebraic geometry and number theory. Algebraic geometry is the study of geometric objects defined by polynomial equations, while number theory is the study of the properties of integers. Foster's work in these areas has been published in top academic journals, and he has given invited talks at international conferences.

## **Awards and Honors**

Abdul Foster has received numerous awards and honors for his academic achievements. In 2017, he was awarded the Fields Medal, which is the most prestigious award in mathematics. He is also a recipient of the MacArthur Foundation Fellowship, the Sloan Research Fellowship, and the NSF Graduate Research Fellowship.

## **Future Goals**

Abdul Foster is excited about the future of mathematics. He believes that there are still many important unsolved problems in mathematics, and he is eager to contribute to our understanding of these problems. He also hopes to inspire other young people to pursue careers in mathematics.

Abdul Foster is an extraordinary young mathematician who has already made significant contributions to the field. He is a role model for other young people who are interested in pursuing careers in mathematics, and he is sure to continue to make groundbreaking discoveries in the years to come.
